

In addition to our song list, we have an arranger to create all your special requests free of charge. Tell us your favorite styles, artists, and specific songs you want us to play or not play. Even if we only play it once for your wedding, we're happy to learn it for you. We will play any song you'd like for your first dance, father/daughter and mother/son dances, and 3-5 new songs. Once we have your song choices, we'll create a setlist and make adjustments throughout the night to keep your dance floor packed all night. We will play the perfect song at the perfect time to keep you and all your guests dancing.
